

Ganshin

The following is the information concerning this organic plant:

Appearance

Gahshin Root is the root of a grass-like plant that is common in grassland areas. It looks like a tiny white carrot (even the surface part of this root is pale white).

% chance to locate per 24 hours: 5%

of checks per 24 hours: 1

Classification: Root.

Color: White.

Location: 4" to 6" beneath the surface.

Maturity: 14 days.

Regional habitation: Grasslands.

Smell: Mint.

Uses found: 1-D4 +1

Value per use: 1 electrum

Taste: Mint.

Texture: Smooth until broken into strands of wet fiber.

Explanation

This little root is a life saver! It not only cleans the mouth, but makes breath smell mint and fresh. The most desirable attribute of the Ganshin Root is the +1 bonus to Charisma it gives during the “Duration of effects”.

Area of influence: Mouth and breath.

Damage: None.

Duration of effects: 1-D6 +1 hours.

Effect time: 1-D4 +1 turns (10 to 25 seconds).

Effects: Chewing this root will release juices from its fibers that kill bacteria of the mouth. The fibers rub the gums and teeth very well, helping to remove stains and tooth decay.

When this root is in effect, charisma will increase by +1

Healing: Kills bacteria that lead to foul breath odor.

Immunities: None.

Maximum adjustments:

Overdose symptoms: None.

Range of influence: Mouth.

Resting time: None.

Side effects: None.

Used for: Bad breath and cleaning teeth and mouth.

Preparation

Wash Gahshin Root clean and chew it.

Avoidance-roll: None.

Measurement per use: 1 single root.
