

Encounters, Specifics for:

Here are a few questions that have been asked from time to time during game-play:

Question

How are encounter checks determined? I mean, what if someone strays from the group?

Answer

A separate encounter check is rolled only when a member strays out of sight from the main body of the company.

Question

What if we are at an inn, and there are other adventurers present? Doesn't the G.M. do additional encounter checks for them?

Answer

No. Additional encounter checks will only be rolled for those playing the game, and for those whom the G.M. has set up as part of the adventure (this is strictly up to the G.M.). If a "Silent Character" has become part of the adventure, and strays from the sight of the group, then separate encounter checks will be rolled for as the G.M. finds it necessary.
