

Riddles

By learning this skill, you will have a bonus of +1% to know a riddle based its difficulty.

Common Riddle

Modification Point cost: 4

UnCommon Riddle

Modification Point cost: 8

Rare Riddle

Modification Point cost: 12

Legendary Riddle

Modification Point cost: 16

Riddle difficulty:

When you are asked a riddle, it may not be actually stated. The G.M. might say, “The Sphinx asks you a Legendary Riddle.”

When this happens, you will roll your % dice and try and roll your % chance or below to answer the riddle correctly. It is as simple as that . . .

To determine what your % chance is to know a riddle based on its difficulty, see the following chart:

Common: $\text{Wisdom} = \% \text{ chance to know a riddle}$

UnCommon: $\text{Wisdom} \div 2 \text{ (rounded down)} = \% \text{ chance to know a riddle}$

Rare: $\text{Wisdom} \div 4 \text{ (rounded down)} = \% \text{ chance to know a riddle}$

Legendary: $\text{Wisdom} \div 10 \text{ (rounded down)} = \% \text{ chance to know a riddle}$
