

Potions

Gifts a master brewer with the ability to create the MOST DELICIOUS tasting drinks. When a drink has been created, the master brewer can then use this ability to empower the drink created with a spell or ability that he or she possesses.

Modification Point cost: 50

Example:

If a Brewer has the spell "Drowsiness", a fine brew could be concocted that would cause the one it is given to fall into a deep sleep. This form of magical drink is only potent so long as it remains fresh. Once the drink becomes old, or no good, the magic will fade (in other words, once a drink changes from its original state, it will lose its magical effect).
