

# Elbow-Spikes, Acid

**Area of Effect:** As the normal range of a weapon. Acid damage only effects where the blade has struck.

**Avoidance-roll:** None.

**Charges:** Permanent ability.

**Command word(s):** None.

**Damage:** Acid: 3D-10 (roll 3 D-10) in the same area this weapon has struck the target. Physical: As the normal damage of the weapon wielder is holding.

**Duration:** Physical and acid damages are done in the same turn that targeted is struck.

**Effect time:** Instant. Acid damage is calculated directly after the physical damage has. Do them separately.

**Explanation:** The Acid Elbow-Spikes is a formidable weapon, causing not only physical damage, as does a normal Elbow-Spikes of its type, but burning, acidic, damage. When a wielder strikes his or her intended target, roll up the normal damage a Elbow-Spikes of this nature would cause. After that, roll up the acid damage and add it to the damage already caused.

**Note:** This is not actual acid-damage caused by a splash of acid. It is unlike spells of an acidic nature. This is a magical effect that causes burn. There is no avoidance-roll Vs. “Magic” for this, but magical immunities and resistance may negate the effects of the acid burn.

**Hand movement:** None.

**Healing:** None.

**History:** Unknown.

**Immunities:** Acid-dwelling creatures take only ½ damage, and Acid-using creatures take no damage from the acid damage of this enchanted weapon (although they are susceptible to the physical damage of the Elbow-Spikes itself).

**Invoke time:** Not applicable.

**Maximum adjustment:** Not applicable.

**Notes:** None.

**Preparation:** None

**Range:** As the normal range of a weapon.

**Resting time:** Not applicable.

**Value:** Elbow-Spikes value + 750 W.G. per Rank + 45,000 W.G.
