

# Height, Attack bonuses for:

The following are the bonuses for a creature to successfully strike another creature vs. height bonus over another creature:

x2 the height of your opponent = A +15 added to your dice-roll attacks.

x3 the height of your opponent = A +30 added to your dice-roll attacks.

x4+ the height of your opponent = A +45 added to your dice-roll attacks.

Note: Attacking an opponent that is downhill from you will give you the bonus on your attacks as if you are at x2 height. Defender can defend as normal in all cases, unless otherwise stated by the G.M.
