Explanation: The Storing Cloak has a holding space of 400 cubic feet. To retrieve a desired object out from the Storing Cloak, merely reach in a hand and concentrate on the item to be retrieved.

The largest object that can be fitted past the opening of the Storing Cloak is 96" in diameter. It will be strictly up to the G.M. the exact size of items in this game (G.M.: be fair with this ruling).

This cloak can tear just as easily as a new cloak. If it is torn, it will unravel, dumping all items out.

The items stored in this magical cloak are not subject to movement by the carrier. In other words, if the holder of a full Storing Cloak falls, none of the items will be disheveled within.
