

# Shields, Enchanted:

Enchanted Shields are shields that have been spell-bound to hold an enchantment to aid the user.

Enchanted means that a shield will have some ability or power that has been spellbound into it.

Each grade point of a Magic Shield will increase the value by 500 white-gold. Example: A Grade-1 Enchanted Shield is worth 500 W.G., Grade-2 is worth 1,000 W.G., Grade-3 is worth 1,500 W.G., etc. This is only the GRADE value of the shield. The shield itself is valuable as well.

Enchanted Shields will heal up 2 points of damage per section per hour while in the direct sunlight.
