

Elf, Sardakk

Generally, AI, EI, and OI will be at the end of a word as follows:

Singular: ai

Present tense: ei (most of the time present tense will not have the "ei" at the end of it as it is not necessary).

Plural: oi

A is pronounced like in the word say, or hay

E is pronounced like in the word end, or egg

I is pronounced like in the word eat, or feet.

O is pronounced like in the word ore, or okay

U is pronounced like in the word you, or too

I've put some other examples in parenthesis. These languages are a work in progress.
