Characteristic points, Extra:

Extra characteristic points are to help in the creation of the character. You can add one or more of these points to any combination of characteristics you choose.

   When you initially chose your race type, you may have gotten some adjustments to your characteristic scores due to the race you picked. Go ahead and do those now, and then roll on Chart #1 for your Extra Characteristic Points. When you are done placing them, and getting your characteristics situated, move on to the next step:
